

Recitation 08

Buffer Overflow

Today's agenda

- ▶ We will discuss in recitation
 - ▶ Buffer overflow
 - ▶ A contrived example
- ▶ What you might do eventually
 - ▶ R08
 - ▶ Cause a function that is never called to execute by changing two variables
 - ▶ Optional, but replaces your lowest recitation (meaning if you skipped one you can do this instead)

Buffer Overflow

No slides on this yet, if you want some ask me
